

# Advantage Patio Doors with RLT Blinds

## A FRESH LOOK AT PATIO DOORS

Sliding Patio Doors allow homeowners to enjoy a panoramic outside view. They also bring natural light into the home. Sometimes this large glass area can compromise privacy and light control. Sure, you can install traditional window coverings but they can be difficult to operate and always seem to be in the way. Pollard's Advantage Vistador Patio Door with internal RLT (Raise, Lower, Tilt) blinds is the ideal solution. These blinds are practical and convenient, offering homeowners fingertip control of privacy and natural light.

### ADVANTAGE VISTADOR PATIO DOORS

With the Advantage Line Patio Door your customers will love the maintenance-free benefits and durability of the premium virgin vinyl construction. Patio doors offer grill, glazing and exterior options to allow you to customize the perfect door for your plans. They come complete with a sliding screen door to let the fresh air in and keep the bugs out. Energy efficient Low E glass is included in all doors. RLT blinds are available in 5 foot and 6 foot Advantage Line Patio Doors and matching sidelites.

### CONVENIENCE & DURABILITY

- No dusting, easy to maintain
- No exposed cords (child and pet safe)
- Blinds protected from wear and tear
- Reduced allergen exposure
- Neutral white color complements any decor

### PRIVACY & LIGHT CONTROL

RLT blinds are able to be raised, lowered and tilted allowing for adjustability and control of:

**Privacy** – Fully open creates a wide open panoramic view. Fully closed, you'll enjoy complete privacy from the outside world.

**Light Control** – Fingertip tilt control diffuses light to reduce glare and solar heat gain as well as adding a measure of privacy.
