

Elegant and Secure

European technology in a North American Lock.

By simply closing the door the upper and lower 3/4" (20 mm) latchbolts will instantly engage.

By turning the key from outside or the knob from inside it will engage the 1" central deadbolt and block the top and bottom latchbolts to become a 3-deadbolts locking system.

The Advantages

- 1** The top and bottom 3/4" (20mm) tempered steel latchbolts always engage behind the keepers upon closing the door:
 - give more security
 - give better weather sealing performance
 - help reduce door warpage
- 2** No lifting of the handle to engage locking points
- 3** 1" (25mm) central deadbolt
- 4** 90 degree rotation of thumbturn or US-cylinder engages the deadbolt
- 5** Reversible latch
- 6** High grade 16mm Stainless Steel faceplate for higher corrosion resistance. Radius ends for a clean look and easy installation
- 7** Available in 50 and 60mm backsets for 6' 8" and 8' doors.

ROMA Trim Kits

Description	PU	Part Number
Handle sets for active doors with US-cylinder	1	K-U4092-01-0-*
Handle sets for semi-active doors	1	K-U4046-00-0-*
Handle sets for fixed doors	1	K-U4010-00-0-*
* = Color		PU = Packaging Unit
11 = Satin Nickel, 25 = Dark Bronze, 28 = Pewter		

Additional information

- Unassembled solid brass trim kits
- US-cylinder with standard 5 pins Schlage "C" keyway
- 90° locking with thumb-turn
- Self-centering 8mm spindle
- Stainless steel set screw on levers to secure spindle
- Patented handle clipping system
- Kit for 1 3/4"
- US-cylinder above handle

Solid Brass

Zamac
