PANAVIEW FOLDING DOORS

Premium Multi-Panel Folding Door System

Bring the outside in

PanaView Folding Doors offer an innovative and high performance door solution for residential and commercial applications. The slim design lets you enjoy maximum viewing area. When fully retracted, it allows easy access to exterior living and creates a great feeling of wide open space.

Remarkable Energy Efficiency

The PanaView Folding Doors come with a standard 6 $\frac{1}{2}$ " all vinyl multi-chambered frame. This places the glass panels inside the insulated part of the wall at the center of the total R-Value materials. The full perimeter weatherstrip around the frame and the sashes ensure optimum air and water tightness. ENERGY STAR® qualified, achieving an R-Value of up to 6. With its efficiency and reliability, these doors meet the most stringent standards in the industry.

Frame

Sill

Superior Strength and Durability

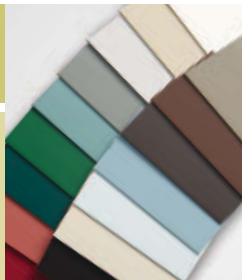

The frame is assembled mechanically with metal reinforcement for maximum sturdiness. Sashes are welded and metal reinforced in all vertical stiles and horizontal rails ensuring long lasting quality construction. The sashes are designed to use common 1" up to 1 $\frac{3}{8}$ " insulated glass suitable for all climates. These all vinyl exterior doors are virtually maintenance-free and all exposed aluminum on head and sill tracks is anodized to prevent corrosion.

Well-Engineered for Security

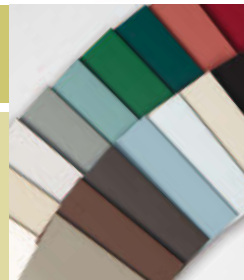

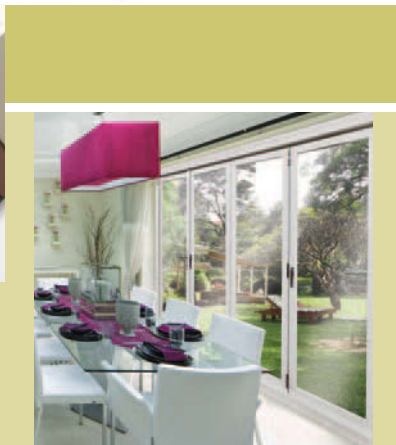

Enjoy peace of mind with enhanced 3-point locking hardware and independent locking systems at every other panel. Benefit from maintenance-free operation with the high quality hardware. The stainless steel top hung roller system provides smooth and effortless operation. The strong and precise engineering in each component ensures extraordinary reliability.

The perfect way to ENVELOP YOU

Maintenance-free exterior is available in standard white and optional custom paint color available on request.

Interior is available in standard white and with the option of a custom paint color available on request.

with the PanaView Folding Doors

OUR SURROUNDING outdoor space

Premium Hardware

Our hardware options are meticulously chosen for aesthetics and comfort. Choose from a variety of handle finishes that will bestow this door with a fabulous look. Popular finishes include: Black, Brushed Chrome and Polished Chrome. Hinged hardware in Oil Rubbed Bronze finish to match the handles will complete the decor. Head and sill tracks are also offered in black anodized aluminum.

Expert Glazing

Many glazing options are available for maximum energy efficiency:

- 1" dual IG – Low E / Argon
- Up to 1 $\frac{3}{8}$ " Triple Glass
- Tinted Glass
- Grills

Optional Low Profile Aluminum Sill

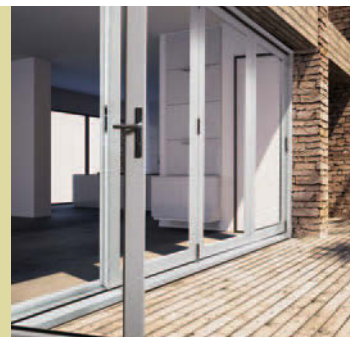

A low profile ADA sill is made of heavy-duty aluminum material for maximum strength and rigidity. Our sill complies to America with Disabilities Act (ADA) Code 1124B. It utilizes a low profile threshold with gap no greater than $\frac{1}{2}$ " in height from surface for better accessibility to people with reduced mobility. It is the perfect solution for many commercial applications (schools, libraries, restaurants, retail store fronts) when a low profile sill is required. The ADA sill has a thermally broken aluminum design reducing heat loss and condensation, ensuring year round comfort. Aluminum reinforced vinyl jambs are secure and easily assembled and fastened directly to the aluminum ADA sill. *Note: A Low Profile Sill is not recommended under certain conditions and climates. Please consult with your Pollard Sales Rep about the suitability for your application.*

Standard white hardware with optional finishes in Black, Brushed Chrome and Polished Chrome.

Strong, precise and well engineered components ensures extraordinary reliability and longevity.
